

Apigee Edge Cloud Traffic Isolation Pack

Description

Apigee Edge Cloud Traffic Isolation Pack enables API runtime traffic separation by Apigee Edge Organization or Environment.

Please see the Apigee Edge Cloud specification for further product details for Organization and Environment definitions.

Key Features

- Ability to isolate traffic by Apigee Edge Organization or Environment
-

Deployment

- Hosted multi-tenant cloud
 - Deployed on a per region basis
-

Limitations

- Respective API call traffic limits still apply for Apigee Edge Cloud
 - Not configurable by customer. Customer needs to contact or request Apigee Support at the time of provisioning.
 - Data migration services not directly required for the activation of this service are not included.
-

The above represents current Apigee Edge specifications, and Apigee reserves the right to change features and functionality and the corresponding specifications in this sheet. The latest spec sheet may be found at <http://apigee.com/about/documents/apigee-specification-sheet-current>, and any updated specifications will be deemed substituted for the above upon their being posted/made accessible at the foregoing location.

Performance throughput will vary based on different API proxy processing factors.
