

# Virtual CISO (vCISO)

## Reduce Risk through Flexible Cybersecurity Leadership

### Cybersecurity Leadership, Ready when You Need It

The security of your organizations assets is important and having proper guidance and executive leadership in a role to manage this process is vital. The issue of hiring a full time employee for this role is both costly and hard to find with today's cybersecurity skill shortage. At CCSI, we can fill this gap with our Virtual Chief Information Security Officer (vCISO) service which enables organizations to move forward and focus on growing their business.

With our vCISO service you'll get a seasoned professional with full access to their skills and experience growing cybersecurity programs. With this service our vCISO's are able to fill in the role of CISO for your organization and help advise on the data security, compliance, and management related challenges your facing today.

No matter if you're looking for a vCISO to help drive your cybersecurity program on a consistent basis, have a trusted advisor assist in the interim or on a project basis. Our industry leaders allow you the flexibility to be advised on security topics to protect your organization today and moving forward. Get a head of the risks today by contacting us about our vCISO program and how we can assist.

**Reduce Risk**

**Flexible Leadership**
